

FIRST AID - TEST SERIES 1-10

Maria Anna Dewes + Myriam Thyes, 2024, 4 channel video installation, 15:10 at least, Loop.

Installation of two projections on walls and two projections on free-standing semi-transparent screens:

4 UHD videos, 4 stereo sounds. Durations of the channels: 13:00, 14:05, twice 15:10 => time shifts in the looping installation.

4 synchronised UHD media players, 4 UHD video projectors with ceiling mounts, 4 pairs of stereo speakers, cabling.

2 frames (each approx. 210 x 370 cm) with semi-transparent projection foil / screen.

Height and width of the projections: approx. 203 x 360 cm each. Space required for floor plan: approx. 450 x 450 cm.

video projector and player hanging from the ceiling

speakers on the ceiling or at the top of the walls (all cabling is via the ceiling)
